## Quantimetrix Updates Lot Number and Expiration Date Format on Urinalysis Dipstick Controls

Redondo Beach, CA – Quantimetrix urinalysis dipstick control product bottles and pouches now feature a lot number-expiration date barcode fully compatible with the Siemens Clinitek Status Connect and Status Plus systems. For users of other systems, the lot number and expiration date are now separated for easier interpretation.

This update applies to the following products, effective immediately: **Dipper POCT®**, **Dipper®**, **Dropper®**, **Dropper® Plus**, and **Chromascopics®**.

**Dip&Spin®** will adopt the updated lot number and expiration date format with the next production lot.

### About Quantimetrix

Quantimetrix designs, develops, and manufactures laboratory quality products at our headquarters in Redondo Beach, California. We are leaders in the field of liquid-stable quality control products, having pioneered these innovations more than 50 years ago. Our world-class portfolio improves the efficiency and reliability of laboratory testing and patient care.
