Quantimetrix Changes the Lot Numbers for Urinalysis Dipstick Controls

Redondo Beach, CA – Quantimetrix lot numbers for Urinalysis Dipstick Controls, which previously consisted of five (5) digits, will now consist of six (6) digits. This change is effective starting with the Dip&Spin®, Dipper® and Dropper® Plus. If this change affects your urinalysis instrumentation, please take care to check the number of digits in the lot number and make the appropriate adjustments if necessary.

About Quantimetrix

Quantimetrix designs, develops, and manufactures laboratory quality products at our headquarters in Redondo Beach, California. We are leaders in the field of liquid-stable quality control products, having pioneered these innovations more than 40 years ago. Our world-class portfolio improves the efficiency and reliability of laboratory testing and patient care.
